

Standards of Practice: Commonly-Used Drugs in Long Term Care a 4-part Webinar Series with

Webinar

3

Insulin Management

Description

Are you getting questions from staff or surveyors regarding insulin usage in your facility? This session is for you! Join us for our Standards of Practice webinar as we discuss the use of insulin in LTC and the need to follow standards of practices in the areas of insulin administration and storage. We will also explore the use of blood glucose monitoring, including when it is needed and the appropriate use and disinfection of blood glucose monitors. This is the third webinar in a series of four, presented in partnership with NADONA.

Learning Objectives

- 1 Discuss the standards of practice associated with blood glucose monitoring
- 2 List the steps of receipt and labeling of insulin vials and pens
- 3 Explain the process of administration and need for rotation of sites

Tuesday, March 7, 2023 | 1:00 PM ET

Presented by:

**Deb Bostic, RN, MSN,
HCAM, CMNL, CDONA**

Senior Director of Nurses,
Genesis Healthcare
